

bust: 34.9

waist: 31.8

hips: 37.6

thigh: 19.2

As seen on Rachael Ray

The Fit3D ProScanner captures a full 360° model of a human body, then automatically extracts circumference, height, volume and length measurements.

Fit3D ProScanner:

- 3D body images
- 400+ body measurements
- Data is trackable online

Body Composition Analyzer:

An instrument that analyzes body composition by measuring bio-electrical impedance.

Basic Items:

Bodyweight, total body water, protein, minerals, fat mass, percent body fat, bone mass, muscle mass, skeletal muscle, fat free mass, visceral fat index, percent body protein/bone/water, body mass index, waist to hip ratio, basal metabolic rate, fitness score, body shape graph and body age

Segmental Analysis:

Segmental fat and segmental muscle

Weight Management:

Target weight, weight control, fat control and muscle control

Obesity Analysis:

Body mass index grade, percent body fat grade and waist to hip ratio type

Nutrition Analysis:

Protein, fat and mineral level

Pricing:

Members: \$60
Non-members: \$75

Includes:

Fit3D and body comp scans – assessment+reassessment (four tests total), customized fitness prescription folder and 30-minute training session

More, devoted to your care.
