

Graduate Nurse Residency Program

Infirmary Health is devoted to helping new graduate nurses transition from classroom and clinical settings into the professional practice of nursing. We offer a 12- month program to assist new graduates in becoming confident and more clinically prepared to care for our growing population in need of care.

Each new resident will complete a 12- month long residency program at no cost. This program involves monthly classes consisting of reflective, didactic curriculum and a PI Project that is evidenced based utilizing a nursing framework and follows ANCC Practice Transition guidelines.

Our program covers:

- | | |
|---|--------------------------------------|
| Communication | Leadership |
| Manage Role Transition | Nursing Workforce |
| Critical Thinking and Reasoning Skills | Nursing Ethics |
| Quality Improvement Principles Care of Patients with Behavioral Issues | Professional Role Development |
| | Preceptor Training |
| | Safety Design Principles |
