About Thomas Hospital
For more than 50 years, Thomas Hospital in Fairhope, Ala., has served Baldwin County and the Eastern Shore. The hospital employs 1,100 staff and more than 200 physicians actively serve the hospital’s community. The 162-bed facility is ranked as a 4 Star Hospital by the Centers for Medicare and Medicaid Services (CMS), ranked nationally for outstanding patient experience and has received awards for obstetrics, cardiac care and orthopedics. The hospital has a $320 million total annual economic impact in Baldwin County.

Thomas Hospital Birth Center
Located on the 4th floor of Thomas Hospital
Now open
Baldwin County is the fastest growing county in Alabama and the 8th fastest growing county in the United States. To accommodate for this growth, the new birth center will increase from 18,000 square feet to more than 29,000 square feet. The center will have seven rooms for labor, delivery and recovery, 15 postpartum rooms, two operating rooms, an enlarged nursery and gathering areas for families. Thanks to the generosity of donors to the Thomas Hospital Foundation, $6 million was raised locally to fund this project.

The Breast Center at Thomas Hospital
Located on the south side of Thomas Hospital
Now open
The new 5,100 square foot comprehensive center includes three mammography rooms as well as the opportunity to receive the latest Genius™ 3D MAMMOGRAPHY™ exam. For diagnostic testing, ultrasound, bone density and stereotactic biopsy rooms are all located within this one convenient location. New amenities include a dedicated parking area with covered entry into the center and one stop registration.

Thomas Hospital Freestanding Emergency Department
29487 Hwy. 181, Daphne, AL
Opening October 2017
The 24-hour, 7-day-a-week emergency department will provide the same full service care as a traditional emergency department and will fill the gap for emergency care in the Spanish Fort and Daphne area. The 22,000 square foot facility will have 12 exam rooms, two trauma rooms, an in-house laboratory and an imaging department complete with MRI, CT, X-ray and ultrasound equipment.

Thomas Cancer Care
On the campus of Thomas Hospital
Now open
Thomas Cancer Care is located in a freestanding building on the Thomas Hospital campus and gives Baldwin County residents and others across the Gulf Coast the opportunity to have radiation treatment options close to home. The center is equipped with state of the art technology including the Varian VitalBeam™ accelerator which gives Thomas Hospital radiation oncologists the ability to target cancer cells within millimeters with precise accuracy in just a matter of seconds. Nurse navigators are on staff to support patients and family through each step of the treatment process.
